Due to the uncertainties of the world current pandemic situation and the effect of the Covid19, it has change the way we work, communicate, decision made and not to mention our emotion and anxiety. Mospa and NIOSH, as the members of the host country for Aposho 2020, we take a great responsibility in organising the event in August 2020 and during this challenging time it is also a great responsibility for us to make decision whether to cancel or delay the APOSHO35.

We know that the current unprecedented situation requires the unprecedented decision and we know that we have not yet explored other possibilities and options for the meeting and seminar of APOSHO35 to be continued thru the current technologies such as teleconferencing or other such new technologies which are available in the world but as we understand and admit that the Covid19 has also changed the way we make decision.

We would like to thank the trust given by all members to MOSPA and NIOSH to organise the APOSHO 35 as well as the support given by the Secretary General in making the launching and the smooth organising the annual event of APOSHO. We know that the journey in organising APOSHO35 has faced many challenges with one member of the host country withdrew which left with NIOSH and MOSPA to continue the journey and the current pandemic of Covid19 that the world is facing and these challenges has made us more stronger and strengthened the APOSHO to move forward.

We wish all members a safe and blessed days ahead and till we meet again at The APOSHO35 Japan. Take care.

Thank you.

Dato' Kanagaraja Raman  
Chairman - APOSHO 35  
President  
Malaysian Occupational Safety and Health Practitioners Association (MOSHPA)

Tuan Haji Ayop Salleh  
Co-Organizing Chairman - APOSHO 35  
Executive Director  
National Institute of Occupational Safety & Health Malaysia
